Informed Consent for Chiropractic Care

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working for the same objective. It is very important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment. You have the right, as a patient, to be informed about the condition of your health and the recommended care and treatment to be provided so that you may make the decision whether or not to undergo chiropractic care after being advised of the known benefits, risks and alternatives.

Chiropractic is a science and art which concerns itself with the relationship between structure (primarily the spine) and function (primarily the nervous system) as that relationship may affect the restoration and preservation of health. Health is a state of optimal physical, mental and social well-being, not merely the absence of disease or infirmity.

One disturbance to the nervous system is called a vertebral subluxation. This occurs when one or more of the 24 vertebrae in the spinal column become misaligned and/or do not move properly. This causes alteration of the nerve function and interference to the nervous system. This may result in pain and dysfunction or may be entirely asymptomatic.

Subluxations are corrected and/or reduced by an adjustment. An adjustment is the specific application of forces to correct and/or reduce vertebral subluxations. Our chiropractic method of correction is by specific adjustments of the spine. Adjustments are usually done by hand but may be performed by handheld instruments. In addition, ancillary procedures such as physiotherapy and/or rehabilitative procedures may be included.

If during the course of care we encounter non-chiropractic or unusual findings, we will advise you of those findings and recommend that you seek the services of another health care provider.

All questions regarding the doctor's objective pertaining to my care in this office have been answered to my complete satisfaction. The benefits, risks and alternatives of chiropractic care have been explained to me to my satisfaction. I have read and fully understand the above statements and therefore accept chiropractic care on this basis.

I have read and was supplied a copy of the **HIPPA guidelines. I have read and fully understand the above Informed Consent and hereby grant permission to receive chiropractic care.**

Dear Medicare Patient,

There are limitations on what Medicare will cover for your Chiropractic care. In an effort to help you understand what Medicare covers and how our office policy affects you, we have outlined below what Medicare will cover and our office policy.

Medicare pays 80% of the fee for your spinal adjustment after your deductible has been met, deductibles vary each year.

Medicare does not cover the following services at a Chiropractic office:

- Massage
- Exams
- Therapeutic exercises
- Durable medical equipment
- Re-exams
- X-Rays
- Supplements

Exams or Re-Exams are necessary and will be administered before a spinal adjustment. New Patient Exams are always required for all new patients. Re-Exams may be deemed necessary if it has been 6 months or more since your last adjustment, or if there is a new injury. It is not a covered service; therefore they are your financial responsibility.

Medicare does have limitations on the number of chiropractic visits. It is based upon your medical condition. Our office is out of network with Kaiser. Please be aware that if you are insured through Kaiser they are a Medicare replacement and therefore services in our office will not be covered.

Our office realizes that most patients on Medicare are on a fixed income. For these reasons, we have made every effort to help you meet your financial obligation to this office. Below is our office policy.

We expect payment for any non-covered Medicare service at the time of your visit.

If you have a copay with your supplemental insurance, it is to be paid at the time of your visit.

If you have any further questions, please feel free to ask for clarification.

Sincerely,

The Staff of Advantage Chiropractic and Massage

If you have any visit limit or dollar maximum it is your responsibility to keep track of this and be aware of your benefits.
Insurance coverage is never a guarantee of payment. If there are any problems between the insurance company and the patient, the patient would need to file a grievance directly with the insurance company. Your signature below indicates assignment to this office for collection of benefits and also authorizes this office to release daily chart notes when necessary for the processing of claims.

Your insurance company determines benefits when they receive our claims. Any statement made by our staff regarding your coverage is in no way a guarantee of payment for your services. I acknowledge that I am responsible for payment of all non-covered services.

Non-Contracted Insurance Billing: If you see a non-contracted (out of network) provider your insurance company may send you a check. You will need to sign the check and return it to our office for services rendered. I acknowledge that I am responsible for payment of all non-covered services.

Medicare: Medicare does not cover the following services at a Chiropractic office: Massage, Exams, Re-exams, X-Rays, Therapeutic exercises, Durable medical equipment or Supplements. We expect payment for any non-covered Medicare service at the time of your visit. If you have a copay with your supplemental insurance, it is to be paid at the time of your visit.

Workers Compensation: We require approval/authorization by your employer and/or worker's compensation carrier. If your claim is denied, you will be responsible for payment in full.
In addition to this verification, we require that you allow us to bill your health insurance if your claim is denied. In the absence of insurance, other financial arrangements may be discussed. Payment of the bill remains the patient's responsibility.

Personal Injury: If you are being treated as part of a personal injury lawsuit or claim, we require verification from your attorney and/or insurance company. In addition to this verification, we require that you allow us to bill your health insurance if your claim is denied or you exceed your benefits. In the absence of insurance, other financial arrangements may be discussed. Payment of the bill remains the patient's responsibility.
